## 1.1 Overview

The following Terms and Conditions (Terms) govern the sale of the cryptographic game assets that fuels MafiaWars.io, an idle mafia themed game on the Bitcoin blockchain, using Counterparty XCP technology.

Proceeds from the sale of Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESE**) will be used to fund the continued development, and post-launch operation of MafiaWars.io. These tokens grant access to gameplay and in-game features.

## 1.2 Utility of Mafia Wars Tokens

Purchasers of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESE**) will find their Bitcoin addresses becomes usable as a player in a mafia themed game on the MafiaWars.io website, so long as their addresses hold an amount of the Mafia Wars tokens.

A large portion of these proceeds will be used for a minimum of 5 years worth of hosting a Counterparty federated node and maintaining the MafiaWars.io website.

### **2.3 Management**

### 3 Risks

In general, there are many risks associated with purchasing tokens and managing private keys. Please do not purchase any of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**), if you are not familiar with Counterparty technology. By purchasing, owning, and using, you expressly acknowledge and assume the following risks:

- You are purchasing the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) for the rights to access and use the MafiaWars.io game.
- The information related to this token sale given in this website and in related online communications has not been approved or verified by the United States Securities and Exchange Commission or by any state or government securities authority.
- The purchase of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) may not be suitable for you and involves a high degree of risk.
- This site and token sale is in no way a solicitation or offer to buy or sell securities. The purchase of Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) does not grant you equity or ownership interest in any company or project related to the MafiaWars.io game.
- The MafiaWars.io game that will utilize the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) tokens is currently in development and although we expect to complete development by the timeline listed we can make no guarantees to the actual completion timeline.
- We are dependent on raising funds in the token sale to fund certain features that we plan to integrate into the MafiaWars.io game. If we raise substantially less than our token sale goal, we will have a difficult time

completing the project.

- We are highly dependent on the Counterparty network and blockchain technology. Disruption in either would be detrimental to the MafiaWars.io game and may cause disruptions including loss of access to the game, service, or affiliates, as well as potential loss in value of game tokens.
- In the event the value of XCP fluctuates unfavorably during or after the token sale, we may be limited in our ability to fund future development projects or to maintain the game.
- We can offer no assurances that a system wide failure of Counterparty, blockchain, our own websites, or any computer infrastructure would not negatively affect our token and game.
- We cannot guarantee the value of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) will not be lower than the initially offered purchase price in the future or that you will be able to sell your tokens at all.
- Any valuations or third-party services cannot be guaranteed by the MafiaWars.io developers.
- We provide no guarantees to the rights to networks, affiliates, utility use, applications, or value of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) now or at any time in the future.
- The Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESI**) are uninsured unless you specifically obtain private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer or private insurance arranged to offer recourse to you.
- There are substantial risks associated with uncertain regulations and enforcement actions. It is impossible to predict or know for sure how or

whether government or regulatory bodies may apply existing law and regulation with respect to such technology and its applications.

- There are substantial risks with hacking and security. Private key management is an advanced skill and should not be taken lightly. Spoofing and malware attacks are common and possible.
- The tax characterization of tokens and cryptography is uncertain. You must seek your own tax advice about purchasing the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESE**), which may result in adverse tax consequences to you.
- Your use of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESE**) on MafiaWars.io, its affiliated websites, and communities, will require your use and acceptance of their own terms and conditions, risk factors, and disclaimers. MafiaWars.io developers provide no assurances, guarantees, warranties, promises, or claims for using tokens through our own network and game.
- There may be substantial other risks that are not foreseen or outlined here. All purchases of the Mafia Wars family tokens (**BONANNO, COLOMBO, GAMBINO, GENOVESE, LUCCHESE**) are subject to your own risk.

### **3.1 Note on Risks**

MafiaWars.io is first and foremost a game. The above risks are important to understand and are most easily avoided by NOT playing.

## 4 Roadmap

This roadmap shows planned events as far out as 2023, however, details are worked out mostly for only the next several months with the remainder of this roadmap to be filled in later, as the game gets played and the community participates. The Mafia Wars is an organic process of development.

### 4.1 Launching

Here is the short-version of the plans for the next several months to achieve production-level gaming.

Timeline	Details
April 2018	Concept and early development on game prototype. Creation of social media accounts and chat room. Creation of game logo and card design templates.
May 2018	Complete Airdrops. Launch Alpha version of the game.
June 2018	Start of the token sale. Launch Beta version of game.

August 2018	End of the token sale. At this point the game is stable in production and future improvements will be made incrementally from here forward (we have many future improvements planned).
September 2018	For the rest of this roadmap, we will just consider these periods as the idle portions of the game where points are being passively earned.

## 4.2 End of Game

On July 1st 2023, the following rewards will be handed out to game players.

<b>Reward Token</b>	<b>Given To</b>
